PORTFOLIO

ericson-portfolio.vercel.app

OBJECTIVE

As a recent Computer Science graduate, I seek opportunities to apply my skills in software development and contribute to impactful projects. Eager to grow as a developer while collaborating with a team to help achieve organizational goals.

SKILLS

- Programming & Frameworks: MERN Stack, Next.js, SQL, PHP, JavaScript, TypeScript
- Styling: Tailwind CSS, Bootstrap
- Databases: MongoDB, PostgreSQL
- Tools & Platforms: GitHub, Figma, Supabase, Vercel, Render
- Languages: English, Filipino
- Soft Skills: Teamwork, Collaboration, Communication
- AI integrations: LangChain, Groq, HuggingFace
- Other languages: Python, Java

EDUCATION

Cavite State University - Main Campus   2019-2024
Municipality of Indang Cavite
Degree in BS-Computer Science

EXPERIENCE

Deskside Support Analyst   2024-2025
Phil-Data Business Systems Inc.
Deployed at Analog Devices Gen. Trias City Cavite

PROJECTS

Gather | github.com/erxon/gather | Live at: gather-plum.vercel.app/

- An information system used to manage missing persons in a community with Face Recognition and Maps
- NextJS, Imagga, and Mapbox

Wise Notes | github.com/erxon/wise-notes | Live at: wise-notes-kappa.vercel.app/

- A note-taking web application that learns from user's notes (RAG)
- MERN Stack, LangChain, HuggingFace, Groq. Deployed in Render and Vercel

Moments | github.com/erxon/moments | Live at: moments-delta-seven.vercel.app

- A simple application that lets users create their own galleries where they store images. The galleries are shareable in pulic or friends or can be private.
- NextJS, PostgreSQL, Supabase

Other project built for client: https://judelu.onrender.com
